Conception
Aim

• SICOT
• Is an international non-profit association incorporated under Belgian law
• The aim to promote the advancement of the science and art of orthopaedics and traumatology at international level
• In particular for the improvement of patient care, and to foster and develop teaching, research and education.
Conception

- Needs of Orthopaedic Residents, Fellows & Practicing Orthopaedic Surgeons are evolving constantly
- Evidence-based knowledge is expanding at a rapid rate
- All residents around the world take an exam at some stage to mark completion of training &/or demonstrate competency
Conception

- Also, most practicing Orthopaedic surgeons do have to undergo some form of appraisal or revalidation at regular intervals to demonstrate fitness to practice.
- Therefore, acquiring and updating knowledge in a short span of time is essential.
Conception

- No formal structured training from SICOT
- Educational Day was conceived with exactly this purpose in mind
Aim

• Provide a comprehensive review course and an evidence-based update for the residents and the practicing surgeons on a specific theme at each SICOT Congress

• Theme selected will be mutually beneficial to the residents in the exams and to the Orthopaedic surgeons in their daily practice
Organisation
Organisation

- Being an examiner recognised the varying needs of the candidates from different parts of the world
- Also, lecturing around the world on various congresses made me aware of the varied needs
- Had the experience of running the programme in Cambridge for the SpRs
- National and International events
Organisation

• Themes based on the syllabus for the EBOT, SICOT and FRCS (Orth) exam in the UK
• Reasonably priced for residents and surgeons in training
• Offers for Membership
• Proposal drafted
Execution

- Proposal made to YSC
- Individual meetings
- Proposal made at CSAC and had tremendous support from Prof. Bunger, Hinsenkamp, Eulert & Tomas Trc
Execution

• Numerous calls and over 200 emails to Bea
• Event planned for the first day of the Congress
• Programme drafted - 12 drafts!
• Based on syllabus
Format

- Full Day 8.30 am to 5.30 pm
- Four-six, short, evidence-based instructional and interactive lectures in each section
- Ample breaks
- Enough time for discussion and debate during breaks
Format

• Dedicated educationalists and leading surgeons invited to give talks
• Mix of young and not so young
• Minimum of 4 local surgeons
• Around the globe
• Balanced approach and equal representation
The Educational Day is a new initiative by the SICOT Young Surgeons Committee and will be launched at the forthcoming SICOT 11th Annual Congress in Prague. This short article discusses the conception, the aims and objectives, and takes a peek into what one can expect from the first Educational Day in Prague next year.

The theme for the forthcoming Congress in Prague is "The Hip." The event will be held at the Prague Congress Centre on 6 September 2011 between 8:30 and 17:30. The day focuses on all the elements of hip surgery, from anatomy and surgical approaches to complex revision hip arthroplasty. The format consists of four to six short lectures in each section followed by ample time for discussion and debate during coffee breaks. Dedicated time will be given to generation, from opening to closing, to lecture on their areas of expertise.

If you wish to learn about the most recent surgical techniques in hip surgery from international surgeons, then Prague is the place to be.

Target audience: Orthopaedic surgeons around the world.
Venue: Prague Congress Centre
Date: Tuesday, 8 September 2011
Time: 08:00-17:00

For more information, please contact the Congress Secretariat at congress@sicot.org.
